Personal Information, Continued

Why do you want to be a member of this County Commission/Committee/Board or Special District?

I have always been engaged in local government and oversight activities in the communities in which I have resided.

Briefly describe what you believe are the most important issues facing the Shasta County community at this time, and how you believe this County Commission/Committee/Board or Special District can play a role in addressing each issue?

I have not had an opportunity to review specifically what matters remain under the purview of this particular committee. However, I believe that the most important issue facing this county will be managing the growth in population into the North State from people moving from Southern and Central California to find quality of life and affordable housing unavailable in those areas.

Please specify any activities in which you are presently engaged, or in which you plan to be engaged, which might create a serious conflict of interest should you be appointed to this County Commission/Committee/Board or Special District.

None
